PROFILE

I started my career in investment banking, spending a year and a half evaluating over 50 startups across deep-tech, healthtech, and travel-tech — building financial models, running due diligence, and helping founders raise capital. From there, I moved into independent M&A advisory before joining Tripjack, where I work out of the CEO's office on strategy, product, and operations.

I have cleared my CFA Level III and am a semi-qualified CA, so I'm equally comfortable with a financial model and a set of accounts. More recently I've been building AI-assisted tools to solve real business problems — a sales governance platform, process automation systems, and data analytics dashboards actively used by leadership. I'm looking for a role where analytical depth, deal experience, and digital fluency come together.

CORE COMPETENCIES

▸ Deal Sourcing & Evaluation	▸ AI-Assisted Tools & Workflow Automation
▸ Due Diligence (commercial & financial)	▸ Financial Modelling & Valuation
▸ Portfolio Monitoring & Reporting	▸ Business Intelligence & Data Analytics
▸ M&A Advisory & Deal Structuring	▸ Process Design & Governance
▸ Digital Transformation	▸ Founder & Stakeholder Relationships

PROFESSIONAL EXPERIENCE

Strategy & Operations – CEO's Office · Tripjack

Mumbai | Mar 2024 – Present

Tripjack is one of India's leading B2B travel-tech platforms. Reporting directly to the CEO, working across strategy, product, operations, and technology.

- Work directly with the CEO on strategic decisions — from growth initiatives to product priorities — acting as an internal sounding board and execution partner.
- Designed and built an AI-assisted sales governance platform from scratch — covering pipeline analytics, intelligent duplicate lead detection using fuzzy matching, and automated data quality flagging. Actively used by the sales team for day-to-day governance.
- Led a growth initiative that moved a core platform metric from 0.5% to 8% MoM — a 16x improvement. The fix has saved the business over ₹10 crores to date.
- Identified and solved a cross-functional process problem worth ₹50+ crores per annum — mapped stakeholder constraints, designed the most efficient solution path, and built it from scratch.
- Managed delivery of 7 product features end-to-end, coordinating between tech, product, and business teams from brief to launch.
- Currently building systems and processes for a new corporate division from the ground up — workflows, governance structures, and reporting.
- Built a Power BI business intelligence system adopted by the executive team for day-to-day decision making.
- Implemented governance frameworks that improved cross-team visibility and operational efficiency by roughly 50%.

Independent Investment Advisor · Stir Advisors

Ahmedabad | Nov 2023 – Mar 2024

Boutique M&A and transaction advisory firm working with early-stage companies and SMBs.

- Advised founders on M&A transactions — structuring deals, managing negotiations, and supporting documentation through to close.
- Built investment theses and financial models to support recommendations across buy-side and sell-side mandates.

- Managed end-to-end client relationships across the full deal lifecycle.

Investment Banking Associate · IBGRID

Ahmedabad | Jun 2022 – Nov 2023

Mid-market investment bank focused on early-stage fundraising and M&A across technology sectors.

- Evaluated 50+ startups across deep-tech AI, healthtech, and travel-tech — building investment theses, valuation models (DCF, comparables, precedents), and competitive analyses.
- Ran financial and commercial due diligence: validated business models, stress-tested financial projections, and assessed market opportunity and competitive positioning.
- Prepared pitch decks and financial models for \$0.5M–\$3M fundraising transactions across 15+ companies; several mandates closed successfully.
- Worked closely with founders throughout the fundraising process — from sharpening the narrative to negotiating term sheets.
- Produced sector research on deep-tech AI, healthtech, and travel-tech to support deal sourcing and investment strategy.
